

The American Prosperity Pillow™ story

For centuries, a prosperity pillow was a symbolic item associated with manifesting wealth and abundance. Its concept is rooted in various cultural traditions where pillows or objects placed under them are believed to attract good fortune. Many believe that sleeping on or near your pillow enhances dreams and thoughts about success. Often the pillows are made with luxurious or rich-looking materials like velvet, satin, or gold-toned fabrics and embroidered with elements associated wealth. Some pillows are stuffed with dried herbs (known for attracting wealth) or crystals (associated with financial growth) and or small charms or coins.

Now America has its own a prosperity pillow.

Conceived and made in the USA, by American entrepreneurs, The American Prosperity Pillow comes with a twist that is more powerful than any other prosperity pillow or symbol. It's not about luck, but intention and practicing the principles that create the American dream. You could say, it's a pillow with a higher purpose.
